*Can I get closer
to my treasures?*

Can I get closer to my treasures?

With Canon's new Sure Shot Z155, you can. The smallest compact zoom camera in its class combines high-quality photography with ease-of-use and amazing design. Just set the Best Shot dial to suit your subject, point and click. When you're done, the 4.2x zoom lens retracts completely, making the camera easy to take with you. Perfect for holidays, family get-togethers or any other special moment you want saved.

YOU CAN ZOOM INTO EVERY DETAIL

The Sure Shot Z155 is a fully automatic 35mm compact camera. Its strong metallic body is built around a high-magnification, high-image quality 4.2x zoom lens. Which means you can get as close as you like to your subject, capturing every detail. Our new combined auto focus and light metering system will ensure sharp, well-lit photographs, even if your subject is positioned off-centre or light conditions are not optimal. It takes up less space inside the camera making it smaller, lighter and overall more portable.

YOU CAN OPERATE IT IN A FLASH

The Sure Shot Z155 is very easy to operate. It can handle all light conditions. Indoor, outdoor. Sunny or cloudy. You can even continue taking photos after dark because the built-in flash fires automatically if light is low or when your subject is backlit. It includes red-eye reduction and a slow-sync mode that makes sure background illumination also gets captured in night scenes.

YOU CAN ENJOY PERFECT DESIGN

The camera's elegant body shape fits your hand perfectly, guiding your fingers automatically to all the major functions. The large display on the back provides you with clear information about your camera settings.

YOU CAN GET PERSONAL

The Best Shot dial on the back of the camera will ensure the appropriate camera settings for any type of picture being taken, e.g. portrait, action shot or close-up. It also has a Personal mode in which you

can specify your own preferences. To add a personal touch you can print captions* like 'Happy Birthday', 'I love you' or the current date or time on your photos.

For people with prescription glasses the viewfinder has a dioptic adjustment possibility so you don't need to wear your glasses to get a clear image.

With the Sure Shot Z155 you will never forget those special moments.

*Caption function only available on Caption model

4.2x zoom lens for high quality magnification.

Clear information from large LCD.

Easy operation with Best Shot dial.
